

Experiment: Payroll Processing System

Aim

To develop a simple Payroll Processing System using Zoho Creator to demonstrate the Software as a Service (SaaS) model, enabling payroll calculation and employee salary management through a cloud-based application.

Procedure

1. Log in to Zoho Creator and create a new application named Payroll Processing System.
2. Create a form and add the required employee and salary fields.
3. Configure formulas to calculate Gross Pay and Net Pay automatically.
4. Save the form, enter sample employee records, and verify the generated reports.
5. Publish the application to demonstrate cloud-based access using the SaaS model.

INPUT:

Payroll Process

Employee Name

First Name	Last Name

Employee ID

Department

Designation

Experience (Years)

Basic Pay

HRA

DA

TA
